

# CourtEdge™ Reducer Applications

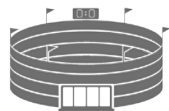

## SCHOOL'S & PARK'S

Reducers surround a synthetic turf installed on top of an asphalt play-ground to create a football field; making it easily accessible, compliant, safe, and they are UV stable with no load weight limitations.

## GYMNASIUM'S

Used in doorways and to surround new and old flooring for compliance and accessibility.

## STADIUM'S

Recycled rubber reducers, opposed to other materials, make for a safe "injury free" solution to removing vertical barriers.

## CourtEdge™ REDUCERS

*Variety of sizes and 6 colors to choose from*

### REDUCER 300

$\frac{3}{4}" \times 5\frac{1}{2}" \times 36"$
